Skills

→ Brand Strategy & Identity

Strategic conceptualization, Corporate identity, Visual systems, Art direction, Typography.

Paper + Pencil, Adobe CC

→ Interface & Product Design

UI Design, Design Systems, Wireframing, Prototyping, Information Architecture.

Figma, Adobe CC

→ Front-End Development

Front-end implementation built and led directly — modular UI layout, interface logic and performance optimization (CWV) — collaborating with development teams on larger-scale projects.

HTML5, CSS3, JavaScript, VS Code

→ AI-Assisted Design & Development

Applying AI throughout the design process — image generation, generative expansion and assisted vectorization, code refactoring and debugging, workflow automation and rapid prototyping.

Diffusion Models, LLMs in VS Code

→ Languages

Spanish - Native

English - Advanced / Full Professional Proficiency

Brand & Product Designer | Branding, UI & Front-End

Brand & Product Designer with 20+ years of experience connecting brand strategy, visual identity, digital product design and front-end development. Working across the full design spectrum — from defining brands and visual systems to designing digital products, interfaces and web experiences — bringing a hands-on understanding of front-end implementation to the process.

Experience

estudio.d — Brand & Product Designer

Jan 2009 – Present. Independent design practice focused on brand strategy, visual identity, digital products and web design across multiple industries.

Quik! — Product Designer

Jun 2021 – Nov 2025. Embedded full-time on Quik!'s product team — UI/UX design, brand alignment and front-end implementation.

Concurrent with the Lead Designer role at Software Mind LATAM (below)

Software Mind LATAM — Lead Designer

Aug 2012 – Nov 2025. Creative direction, UX design, design systems and information architecture across multiple client accounts. Led the Design area at Virtualmind prior to its acquisition by Software Mind, shaping the company's visual identity and design culture.
